

53FT DRY CONTAINERS

53FT STANDARD DRY CONTAINER

Our 53ft dry container is made from durable materials and equipped with lashing rings to ensure that the goods inside are protected during transportation.

By using special high-strength steels and lightweight floor materials, an extremely low tare weight has been achieved. Equipped with a bamboo floor and coated with

waterborne paint our containers ensure sustainability and reduce your carbon footprint.

Our 53ft dry container offers a high cubic capacity and payload. The containers allow for efficient and secure transportation of a wide range of products, from consumer goods to industrial materials.
